

Celtic Transport Group

We have opportunities available for newly minted Class 4 and 5 drivers at Celtic Transport Group.

The vast bulk of the fleet is new or near new trucks, however we have a couple of trucks that are ideal for an inexperienced driver.

They are about 10 years old but well maintained and in very good condition for their age. We are prepared for some of the bumps and bruises an inexperienced driver may introduce, but it will allow them to get into the industry with a fantastic group of drivers and a very supportive environment. There will be an opportunity to move into the newer gear when they're ready and spots present.

Currently we have the following units looking for drivers:

- 6x4 tipper
 - o Isuzu with synchro 9sp eaton gearbox.
 - o Class 4
 - o No tipping experience necessary
- 6x4 with 4A tipping truck and trailer
 - o Isuzu Giga 400hp with 18 sp road ranger gearbox
 - o Class 5
 - o Some tipping experience is preferred, but getting the right person is more important.
- 6x4 with 4A tipping truck and trailer
 - o Fuso Euro 470 hp with 12 sp AMT gearbox (no clutch)
 - o Class 5
 - o This driver should have some class 5 experience as it is a near new truck.

T&T drivers will be required to jack-knife competently, however we have excellent training in house and happy to spend the time with the right person to get them up to speed jack-knifing. It's more about attitude and motivation than current skill levels, we have trained several drivers up from 6W and artic to T&T units recently generating these opportunities.
